CONEC GROUP

HEADQUARTERS:
CONEC Elektronische Bauelemente GmbH, Lippstadt, Deutschland

CONEC EtherCAT connector series

Details

- Size: M8x1
- Coding: A
- No. of poles: 4
- Connector types:
 - Patch cord axial/angled male-male
 - patch cord M8x1 socket – RJ45 overmoulded
 - field attachable
- Degree of protection: IP67 (in mated condition; RJ45 IP20)

Advantages

- 360° shielding
- Shock and vibration resilient
- Space-saving design
- Drag-chain-suitable cable-quality
- Suitable for EtherCAT protocol

CONEC EtherCAT P connector series

Details

- Size: M8x1
- Coding: P
- No. of poles: 4
- Gender: Female, Male
- Connector types:
 - axial/angled overmoulded
 - axial field attachable
 - sockets 1-part, sockets 2-part
 - sockets overmoulded,
 - insulation body SMT/THR, socket housings
- Degree of protection: IP67 (in mated condition)

Advantages

- 360° shielding
- Shock and vibration resilient
- Space-saving design
- Drag-chain-suitable cable-quality
- Suitable for EtherCAT P protocol
